Bhumika Madhwani

Pune, Maharashtra

+91-9822668847 | madhwanibhumika24@gmail.com | bhumika-madhwani | madhwanibhumani24

Summary

MCA student with a foundation in Machine Learning and Python, focused on building LLM and Retrieval-Augmented Generation (RAG) systems. Hands-on experience with embeddings, vector search, and retrieval evaluation using LangChain and ChromaDB, backed by full-stack development skills (FastAPI, React, MySQL). Seeking an ML internship in NLP and GenAI, with interest in Healthcare and Life Sciences applications.

Education

MIT-WPU, Pune 2025 – 2027
Master of Computer Applications (MCA), FYMCA CGPA: 8.75 *Maharashtra, India*

MIT-WPU, Pune 2022 – 2025
Bachelor of Computer Applications (BCA), CGPA: 8.85 *Maharashtra, India*

Pemraj Sarda College, Ahilyanagar – *HSC, 77.17%* 2022

St. Vivekanand English School – *SSC, 90.80%* 2020

Technical Skills

- **Languages:** Python, SQL, Java, C++
- **AI / ML:** LLM Integration (Google Gemini API), RAG, LangChain, ChromaDB, Embeddings, Vector Search, Prompt Engineering, RAG Evaluation
- **Backend & APIs:** FastAPI, REST APIs, MySQL, JWT
- **Frontend:** HTML, CSS, JavaScript
- **Foundations:** Machine Learning, Data Structures & Algorithms, OOP, DBMS
- **Tools:** Git, GitHub, VS Code, Jupyter Notebook

Projects

BrowserMind – AI-Powered Chrome Extension | GitHub
Tech Stack: JavaScript, Python, FastAPI, LangChain, Gemini, MySQL, ChromaDB

- Developed a Chrome extension with an AI assistant sidebar for interacting with web content and assisting with coding, learning, and career-related tasks using Gemini.
- Implemented a Chat with Documents feature to answer questions about uploaded documents and retrieve relevant information.
- Built document processing and retrieval tools using FastAPI, with website-based prompt routing to select the appropriate AI assistant.

MockMate – AI Mock Interview Platform | GitHub
Tech Stack: React, FastAPI, SQLAlchemy, Gemini API, JWT, OAuth 2.0

- Built a full-stack AI interview platform with personalized questions, follow-ups, voice interaction, and feedback reports.
- Developed resume-based interviews by extracting PDF/DOCX content and generating tailored questions using Gemini API.
- Implemented JWT and Google/GitHub OAuth authentication, password reset, REST APIs, group discussions, and scored aptitude quizzes.

Certifications

- **Certificate Program in AI & ML** – FutureSkills Prime (MeitY – Nasscom), Sep 2026 | View Certificate
